Frontend Developer | React & Angular Specialist

Creative and results-driven Frontend Developer with strong experience in **React**, **Angular**, **HTML**, **CSS**, and **JavaScript**. I specialize in building clean, responsive, and interactive UIs. I love working with modern frameworks and delivering optimized, accessible web experiences that scale. Currently exploring backend technologies like **Node.js**, **MongoDB**, and **Firebase**.

Skills

- **Languages & Tools**: HTML5, CSS3, JavaScript (ES6+), TypeScript

- **Frameworks**: React.js, Angular (v2+), Next.js

-

UI/UX: Responsive Design, Flexbox, CSS Grid, Tailwind CSS

-

Version Control: Git, GitHub

-

Other: REST APIs, Agile/Scrum, Cross-browser compatibility

Experience

Frontend Developer *(Freelance / Remote)*

 Jan 2023 − Present

-

  Built and maintained modern, responsive UIs using **React** and **Angular**

-

  Worked with cross-functional teams on new feature design and development

-

Integrated RESTful APIs and ensured cross-browser compatibility

- Implemented performance optimizations for faster page loads

- Collaborated in Agile sprints and conducted peer code reviews

---

Projects

AIxperience – aixperience.netlify.app

React, Tailwind CSS, Firebase

- Developed an AI tool showcase site with dynamic categories and tool listings

- Integrated responsive grid UI and user-friendly navigation

-

Hosted and maintained on Netlify for live access

AI-Powered Learning Platform

React, Tailwind, Firebase

- Created a scalable UI for an educational platform powered by AI tools

- Enabled real-time features using Firebase and responsive layouts

E-commerce Dashboard UI

Angular, SCSS, REST API

- Designed and developed an admin dashboard with product/sales analytics

- Implemented dynamic charts and data tables
